Classification: UNCLASSIFIED
Caveats: NONE

Chris,

Does EPA have any concerns at this point with the fish hatcheries NPDES permit or how they are operating? I will be making a trip next Thurs to visit the site and talk with the folks at the hatchery. There are so many different players that it has been difficult to get a straight answer. I keep on hearing about the 90% removal and how we can't meet the requirement. One of my biggest concerns is that the hatchery has added capacity and I want to make sure we do not go over any limits because of this. Thanks.

Don

Chris and Courtney,

I am the new District Environmental Manager and have taken over for Damian Walter. If you have any questions or concerns about the fish hatchery, please copy me on all communications. Thanks.
